DETAILED ACTION

Claim Objections

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 26-35 have been renumbered 22-31.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-9, 18-23, drawn to nucleic acid binding compound comprising a backbone of formula II and method of using and making.

Group 2, claim(s) 1, 10, drawn to nucleic acid binding compound comprising a backbone of formula III.

Group 3, claim(s) 1, 5, 6, 11, 12, drawn to nucleic acid binding compound comprising a backbone of formula V

Group 4, claim(s) 13, drawn to a compound of formula VI.

Group 5, claim(s) 14-17, drawn to a compound of formula VII.

Group 6, claim(s) 24, drawn to a method for the determination of the presence or absence of nucleic acid .

Art Unit: 1637

Group 7, claim(s) 25, drawn to a method for the determination of the presence or absence of nucleic acid .

Group 8, claim(s) 26-29, drawn to a compound of formula VIII.

Group 9, claim(s) 30, drawn to a compound of formula IX.

Group 10, claim(s) 31, drawn to a compound of formula X.

The inventions listed as Groups 1-10 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are directed to different compounds.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
